

Capability Statement

PRIMARY CONTACT: Curtis Robinson 678-889-3989 | Curtis@robinsonconsults.com

Core Competencies

Robinson Consulting, LLC. with over 20 years experience in the Information Technology field, provides Cyber Security, Physical Security, IT Support, VoIP, Networking, Access Control, Disaster Recovery Planning, Video Surveillance Systems and Technology to small and medium size businesses and government entities that require not only technology, but a company that understands practical technology usage.

We are committed to developing flexible innovative solutions to our clients and believe effective communication and strategic partnerships are keys to our success in delivering quality service. We guarantee a results-oriented, customer friendly engagement and constantly implement new procedures to improve daily. Our commitment is to provide an overall savings to our clients while maintaining efficiency and providing business technology that works securely enabling our client's business to grow.

Past Performance

Contract Name: Murray County High School Video Surveillance

Contract Number: TECHrobinsonconsult081418

Title of Project: Senior Parking Lot Cameras

Period of Performance: October 2018 – November 2018

Description of Work: Install Video Surveillance cameras on (6) existing parking lot light poles, utilizing the existing power within these poles. Install Wireless Point to Point Antennas on each of the poles to transmit video signal from poles to building and then to video recording device via cabling inside the building.

Differentiators

In building out our solution, we understand foundational technologies like network cabling and wireless networking have to be stable in order to build on top of them. In this way we are unique in making sure those foundational technologies work before implementing and adding systems to provide a quality solution for our clients.

In addition our expertise include:

- ✓ Superior Quality of Work
- ✓ On-Time Performance
- ✓ Qualified Staff
- ✓ Flexibility
